

EMRE KART

Full-Stack Developer | .NET Core & Angular Specialist

Istanbul, Turkey | +90 506 640 53 89

kartemre3403@gmail.com | [LinkedIn](#) | [GitHub](#) | emrekart.me

PROFESSIONAL PROFILE

Passionate Full-Stack Developer specializing in **.NET Core** and **Angular** ecosystems. Experienced in building scalable SaaS solutions and applying **Clean Architecture** principles in real-world projects. A proactive team player dedicated to writing testable, sustainable code and continuously adapting to modern software practices.

EDUCATION

Eskisehir Osmangazi University

Bachelor of Science in Computer Engineering (GPA: 3.09)

2020 – 2025

Eskisehir, Turkey

42 Schools Network

Peer-to-Peer Learning Program (Computer Science)

2025 – Present

Istanbul, Turkey

TECHNICAL SKILLS

Backend: C#, .NET 8, ASP.NET Core, Entity Framework Core, SignalR, RabbitMQ

Frontend: Angular 16+, TypeScript, JavaScript, Tailwind CSS, Bootstrap, HTML/CSS

Databases: PostgreSQL, Microsoft SQL Server, Redis, Oracle PL/SQL

DevOps & Tools: Docker, Nginx, Git, Postman, IIS, Linux Server Administration

Architecture: Clean Architecture, Onion Architecture, CQRS, SOLID, Design Patterns

PROFESSIONAL EXPERIENCE

Software Development Intern

BosphorusISS

July 2025 – Aug 2025

Istanbul, Turkey

- Engineered a real-time task management system using **.NET Core** and **SignalR**, ensuring instant data synchronization.
- Optimized database performance by implementing **Redis caching**, reducing query load significantly.
- Designed a scalable backend architecture integrated with **RabbitMQ** for asynchronous messaging.

R&D Product Development Intern

Sovos

Dec 2024 – April 2025

Istanbul, Turkey

- Developed an AI-powered tax compliance chatbot integration using **RAG architecture**.
- Built a modular backend system with **ASP.NET Core** and connected it to an **Angular** frontend interface.
- Constructed web scraping pipelines to gather sector-specific datasets for model enhancement.

Software Developer Intern

TCM Bilişim

July 2024 – Dec 2024

Istanbul, Turkey

- Developed custom enterprise applications using **C#** and **ASP.NET MVC**.
- Designed and implemented RESTful APIs and managed SQL Server databases for client projects.
- Automated business workflows using Microsoft Power Platform (Power Automate).

Researcher – STAR Program

TÜBİTAK

Feb 2024 – Dec 2024

Turkey

- Conducted research on algorithm optimization for next-gen 6G networks.
- Contributed to the development of data analysis models and academic publications.

KEY PROJECTS

Randevubulurum.com (Click to View) | .NET 8, Angular, Docker

- Architected a production-ready SaaS appointment platform using **Clean Architecture** and **CQRS**.

Multimodal Meme Classification (Graduation Project) | .NET 8, Angular, Python

- Developed a full-stack AI platform processing multimodal data (text & image) with **89% accuracy**.
- Built the backend orchestration using **.NET 8** and **FastAPI**, and designed the frontend with **Angular**.
